OBJECTIVE

I'm a web developer, I design responsive web sites for different SPAs and MPAs scenarios, using ReactJS and NextJs I build and maintain the most complicated user interfaces, I have made a lot of projects for the most common web scenarios, and ready to take a part in a collaborative team to build big projects.
I also build mobile applications for Android and IOS operating systems using React native and giving the best results.
I'm a quality driven developer, always finish my projects with expected results using the best practices of coding.
Now I'm learning NodeJS and planning to become a MERN full stack developer in the near future.

Projects

- Real estate: a NextJS MPA project which illustrates various real estate options and details.   CODE   DEMO
- Facebook clone: a NextJS clone site that gives the full experience of the real Facebook site.   CODE   DEMO
- Netflix clone: a ReactJS clone with the ability to see details for each movie.   CODE   DEMO
- E-commerce: ReactJS site with a fully functional cart and detail page for each product.   CODE   DEMO
- Admin-dashboard: ReactJS dashboard, with firebase authentication and full CRUD operations.   CODE   DEMO
- Fitness-club: ReactJS website, with beautiful layout, colors and illustrations.   CODE   DEMO
- E-commerce: ReactJS e-commerce website with beautiful design and smooth user experience.   CODE   DEMO
- Fitness compass: here we search for meals with advanced search and filters.   CODE   DEMO
